FROM THE DIRECTOR:

Mid-term break has come and gone and midterm grades should have given you some idea of where you stand with each of your courses. Now we are headed on what I call the downhill side of the semester. Now as in real life, when you come down the hill the trip is much faster. Well it is the same for each academic semester. Before you know it, it will be December 18, the end of the semester.

In other words, it will go very quickly. Your first responsibility is to UNDERSTAND where you are in each of your classes and to know exactly what you must do to achieve/obtain the BEST GRADE POSSIBLE. Then you need to set a plan of action and stick to it. I am counting on you. Also remember, pre-registration for Spring 2016 and everyone must pre-register. Be pro-active and don’t wait until the last minute to see your academic advisory. Now Thanksgiving is in a few weeks, so enjoy since I won’t write to you before then. Be safe and thankful!

This is a very busy time of year and a very important time regarding your financial aid and personal finances. Be aware of any charges you have incurred on your student account. If you incur charges before you get a refund, they'll be deducted from the refund. If you incur charges after you receive your refund, you must pay them. Charges such as parking tickets, dorm damage, book store charges, late charges, easy money etc., will impact your refund status. Always monitor your meal plan usage. This is particularly important when many students' refunds have been delayed. Do not assume that just because you got a refund last term means you will get a refund this term. For those students thinking about moving off campus please remember that the budget for living off campus is different than the budget for living on campus. Do yourself a huge favor and know your anticipated funds prior to making the commitment to move off. Do you really need that new Apple watch? Your personal funds need to last. Choose wisely.

If you get a refund check, PLEASE VERIFY THAT THE AMOUNT IS CORRECT! Always consult with your EOP counselor before you spend the funds. You will be held accountable for any funds to which you are not entitled. Make sure you understand all components of your financial aid award and your student bill. NEVER ASSUME, ALWAYS ASK! Make sure you fully understand the pros/cons of getting a credit card credit card. Misusage can have serious financial and personal consequences. Do you really need all of your refund? Paying down your loans is always a smart play. Start your advanced planning for potential winter break and summer break jobs. Saving your earnings can reduce your loans even further. Please think long and hard about the pros/cons of getting a part time job while in school. You need to concentrate on getting good grades. There is a major difference between financial need and financial desires. Know the difference between short term sacrifice vs. long term gain. Don't forget that your cumulative GPA and amount of earned credits can have a direct impact on you receiving your full financial aid. You must stay aware of your status. Please consult with your counselor to help ensure your complete and detailed understanding of these important matters.

EOP students - need a little help reviewing for a class, deepening your understanding of specific course content and/or improving your study strategies and increasing your chances of academic success and obtaining a healthy GPA?

EOP’s One-On–One Peer Tutoring Program provides individualized academic support to students in their specific course content areas of study to assist in further expanding their understanding of the various processes, concepts and principles of the course material; as well as offer opportunity for students to practice their learning. EOP’s Peer Assisted Learning (PAL) Program
(Starting Tuesday, September 8)

EOP’s Peer Assisted Learning (PAL) Program offers students another opportunity to practice their learning. We offer guided study groups for specific classes. The groups are facilitated by peer fellows, a student who, like our peer tutors, has earned a superlative grade in the class and is recommended by the professor.

Students attending can expect the peer fellow to support them through the material they want to practice, helping them not just understand challenging content, but also realize that they have been learning better skills as they practice.

Any student enrolled in the specific class may attend the study group. You’ll find that this opportunity is not just for students having trouble. Successful students use this opportunity to maintain and increase their competence.
