Fraternity & Sorority Life's National Order of Omega Welcomes Spring Initiates

Eight new Greek members were initiated into the national Order of Omega Honor Society on May 3, 2017.

Order of Omega Spring 2017 Initiates
Since 1995, Brockport's Omicron Beta chapter of Order of Omega has initiated 167 members. Order of Omega is an International Leadership Honorary Society recognizing the top 3 percent of fraternity and sorority members annually. Order of Omega was founded at the University of Miami (FL) in the fall of 1959 by a group of outstanding fraternity men, who felt that individuals in the Greek community should be recognized for their service to the fraternity system.
and the University. The Order of Omega voted to become a coeducational organization in the spring of 1977. The Order of Omega now has over 550 chapters across the United States and Canada.

The purpose of the Order of Omega is threefold. First, to recognize those students who have attained a high standard of leadership in inter-Greek activities, to encourage them to continue along this line, and to inspire others to strive for similar conspicuous attainment. Second, to bring together the most representative fraternity and sorority members, and to create an organization that will help to mold the sentiment of the institution on questions of local and intercollegiate affairs. The final purpose is to bring together members of the faculty, alumni/ae, and student members of the institution’s fraternities and sororities on a basis of mutual interest, understanding, and helpfulness.

Eight new members were recognized at the ceremony held on Wednesday, May 3:
- Gabrielle Branche, Delta Phi Epsilon
- Kelly Cunningham, Delta Phi Epsilon
- Taylor Day, Phi Sigma Sigma
- Christal Dewberry, Zeta Phi Beta
- Emily Galligan, Delta Phi Epsilon
- Kendall Gillette, Phi Sigma Sigma
- Edward Sacer, Pi Kappa Phi
- Kelsei Schuster, Phi Sigma Sigma

Fraternity & Sorority Life would like to congratulate all members of the Order of Omega honor society, including the graduating members.

Political Science Professor Briefs White House

On May 4, Dr. Nilay Saiya (Political Science & International Studies) Presented a Briefing to the National Security Council at the White House

On Thursday, May 4, Dr. Nilay Saiya (Political Science & International Studies) took part in a briefing at the White House with senior Trump administration officials. The meeting centered on national security issues, including terrorism, Islam, sustainable security and religious liberty. The purpose of the briefing was to advise the drafting of the administration’s National Security Strategy—a document that broadly reflects the president’s views on foreign affairs.

The Brockport Pen Pal Tradition Continues
Childhood Inclusive teacher candidates party with their pen pals in Kristin Geroux’s class at the Barclay School in Brockport.
Pen Pal Party

As part of teacher candidates’ EDI 407 coursework, candidates engage third graders in interactive read aloud experiences and literature-based games that focus on students’ reading comprehension. Informed by Dr. Sue Novinger Robb’s pen pal research, this partnership provides an authentic context for children to use writing, while encouraging teacher candidates to examine the ways they position themselves and children throughout their writing exchanges. Teacher candidates also have the opportunity to explore children’s writing development and instructional strategies that may be implemented in their future classrooms. This year’s pen pal partnership was made possible through the support of Lisa Montanaro, an education liaison and Literacy Specialist at the Brockport Central School District.

Hail and Farewell
Welcoming Kevin Rice as our new Director of Physical Plant, and saying farewell to Rick Lair as Interim Director. Over a year ago, the Office of Facilities and Planning faced a substantial transition in leadership. At that time, Rick Lair forwent his planned retirement to lead a significant restructuring of the facilities utilities, trades and maintenance areas as the Interim Director of Physical Plant. This new structure (see link below) provides an emphasis on preventative maintenance, staff development and instilling a culture of shared ownership across the organization. This has already yielded demonstrable benefits and the Physical Plant organization is now on solid footing. It is thus with reluctance, but with gratitude, that we bid farewell to Rick upon his retirement later this summer after 27 years at the College.

At the same time, I am very excited to welcome Kevin Rice as the new Director of Physical Plant effective Monday, June 5. Kevin is a graduate of Brockport and comes to us with a wealth of experience in facilities management in both the private and public sectors. His commitment to customer service, quality of place and commitment of the workforce will build upon the strong foundation established over the past year and serve the College well, as we ‘Build a Better Brockport.’ Please join me in welcoming Kevin.
