Department of Biological Sciences

December 9, 1970

To: Dr. Harold Kibby

The Graduate Committee of the Department of Biological Sciences is concerned about the recent announcement that 12 semester hours of graduate credit can be earned in Environmental Biology by visiting seven European countries during the summer of 1971.

Since the courses indicated have not been submitted to the Graduate Committee nor approved by the Departmental Graduate Faculty, we are assuming that the announcement is not yet official.

We would urge you to prepare the necessary documents as soon as possible in order that students who intend to participate not be denied any credits that the proposed courses might deserve.
