II., III. a. Received and acknowledged

b. Comment:

DISTRIBUTION: Vice Presidents: See attached

Others: 6/5/87

Distribution Date: 5/11/87 Signed: [Signature]  
(President of the College)

Date Received by the Senate: \_\_\_\_\_

RATIONALE: The College Environment Committee has received several letters regarding health and safety concerns on or adjacent to the College Campus. As a result of its investigation of these concerns, three things became apparent:

- 1) there are in existence two advisory Committees operating in this area resulting in a duplication of effort,
- 2) although some safety measures have been or are being implemented, overall coordination or planning is not always evident,
- 3) there exists confusion as to who is responsible for responding to health and safety concerns.

Therefore, the College Environment Committee proposes the following:

WHEREAS the ultimate responsibility for campus environmental health and safety rests with the President and this responsibility includes the establishment of an advisory environmental health and Safety Committee and

WHEREAS the Faculty Senate shares in this responsibility through its standing Committee on the College Environment

BE IT RESOLVED that the President direct the Campus Safety Officer to work with an ongoing study group which shall be comprised of three members from the Campus Safety Committee and three members from the College Environment Committee to undertake a survey of campus needs (which will include college property and adjacent public streets) and to present a list of health and safety priorities to him on a regular basis. It is further recommended that these priorities and steps toward meeting these needs be shared on a regular basis with the Faculty Senate President.
