Re: Professional Preparation Program Proposal request

The Health Science is proposing a minor change in the Professional Teacher Preparation Program. We would like to replace HLS 304 - Safety, Standard First Aid, and CPR with HLS 313 - Introduction to Safety because our teacher certification requirements have increased with regard to the safety components. HLS 313 is an existing course and there will be NO change in the required credits hours for the program.

Please see the attached side by side of the current and proposed programs, in addition to a brief rationale for the change.

You may contact me at my office (extension 2764) if further information is required. Thank you for your consideration of this matter.

**Department of Health Science - Professional Preparation Program
Minor Curriculum Change Proposal Request**

The Professional Preparation Program may be pursued as a track of the Liberal Arts program in Health Science. HLS 313 (Introduction to Safety) is a registered course for our program curriculum. Due to the new safety requirements, necessary as part of our Health Education teacher certification process, this course is ideal. The HLS 304 (Safety, Standard First Aid, and Community CPR) is not required for teacher certification, but has been offered, as a convenience, for the student teachers of the college. The Health Science faculty unanimously agreed to replace HLS 304, within the Professional Preparation track, with HLS 313 in order to satisfy the new Health Education teacher certification requirements in safety. There would not be any change in the total credits necessary to complete the Professional program.

Current Program

Required HLS Liberal Arts Courses
(3 credits each)

HLS 488	Biostatistics and Epidemiology
HLS 303	Environmental Health
HLS 304	Safety, Standard First Aid, Community CPR
HLS 311	Nutrition
HLS 312	Mental Health
HLS 314	Family Life Science
HLS 409	Introduction to Psychoactive Drug Use and Abuse
HLS 419	Human Sexuality

Credits 24

Proposed Program

Required HLS Liberal Arts Courses
(3 credits each)

HLS 488	Biostatistics and Epidemiology
HLS303	Environmental Health
HLS 313	Introduction to Safety
HLS 311	Nutrition
HLS 312	Mental Health
HLS 314	Family Life Science
HLS 409	Introduction to Psychoactive Drug Use and Abuse
HLS 419	Human Sexuality

Credits 24

Required Courses in Other Disciplines for both current and proposed programs:

BIO 321/322	Anatomy and Physiology I & II
PSH 384	Developmental Psychology

Credits 11

Required Professional Health Education Courses for both current and proposed program

HLP 302	Foundation of Health Education (2nd semester sophomore or 1st semester junior)
HLP 491	Health Education Methods
HLP 492	Interpersonal Communications in Health Education
HLP 493	Health Education Program, Planning and Evaluation
HLP 485	Dimensions of Teaching School and Community Health
HLP 486	Experiential health Education

(Note: HLP 491, 492, 493, 485, 486 are taken concurrently in the **fall** of senior semester)

Credits 18

HLP 495	Practicum in School Health and/or	HLP 495	Practicum in School Health and/or
HLP 496	Practicum in Community Health	HLP 496	Practicum in Community Health

(Note: HLP 495 is 12 credits; HLP 496 is 3-12 credits taken in **spring** of senior semester)

Credits 12-15

There would **not** be any change in the total credits necessary to complete the Professional program.
