Custom ANGEL Library Services & Resources

Pauline Lynch Shostack
Onondaga Community College
April 18, 2008
A Little History...

Institutional Timeline

- **2001**: Online courses offered through the SUNY Learning Network (SLN)

- **2004**: College purchases ANGEL. Faculty are given access to web-enhance their face-to-face courses

- **2005**: SUNY adopts ANGEL. OCC begins migration of courses from Lotus Notes to SLN supported ANGEL instance

- **2006**: Continued migration and plans to move all courses to an SLN supported ANGEL environment

- **2007**: Begins a trial of ereserves via ANGEL

- **2008**: Discontinues ereserves via ANGEL and decides to provide the service through OPAC

Library Timeline

- Worked with the Online Learning Office to create a custom library tab of resources then implemented the tab for all web-enhanced courses.

- Custom library tab will be available for all courses (web-enhanced and distance)
Features of the General Library Tab

Preselected databases and the online catalog searchable directly from a student’s course

Link to additional library databases on the library’s website

Library contact information including the option to schedule an online appointment

Online Catalog Search

Encyclopedia Britannica Search

Dictionary Search

Academic Search Premier

Other Coultier Library research databases

Course Resources

There are no bookmarks to display.
Features of the Nursing Library Tab

- Direct searching of the library OPAC
- Direct searching of select databases
  - Oxford English Dictionary
  - Britannica
  - CINAHL (EBSCO)
- Link to the Library's Nursing Subject Guide
- Library Contact Nugget
  - Includes links to chat, email, and in-person details
- Online Reference Appointment Scheduling

Custom links and search for Nursing specific resources
<!-- CINAHL -->

</FORM>
Greetings Becky --- Welcome to Coulter Library Online Reference Appointment Meeting Area.

How can I help you today?

Well I am trying to find out information regarding therapeutic communication effects on patients.

Are you interested in communication provided by the healthcare provider to the patient?

Yes.

Great, can you tell me what research tools you have tried so I don't repeat your search?

I have used the fundamentals of nursing textbook.

Thanks, very helpful. Let me see what I can find. I will be back shortly.

The library has a database called CINAHL that has a number of resources specific to healthcare providers. The database is available in the Library 'Research Databases' section.

The web address is http://library.sunycocc.edu

When I conduct an advanced search for communication as a subject and add the word therapeutic I get 493 items in the results. You could narrow your search down further by limited to gender.
How We Did It?

- I met with the online learning (OL) office staff to discuss what the library wanted and heard what was possible to do in the software (both technically and contractually).
- The OL office then created mock versions that we tested.
- Modifications were made.
- New custom tabs went live (Fall 2007).
The Future

- Continue to test out online reference appointment feature
- Add a chat qwidget
- Utilize the repositories
  - Pre-class questionnaire
  - Library documents for copying to faculty courses
