

## **Drake Memorial Library's Thesis Digitization Policy**

The College at Brockport's Drake Memorial Library is digitizing Brockport theses at no charge to authors to promote and preserve this important piece of their scholarship.

The Library will make diligent efforts to locate the author/copyright holder for each thesis and advise him or her of the Library's intention to scan the thesis and make it available online for public access via Digital Commons @Brockport, our institutional repository.

If the Library is contacted by the author who does not want his or her thesis made available online, only the abstract and link to the catalog record will be made publicly available.
